List with Index

PUBLISHED BY THE UNIVERSITY FOUR TIMES A MONTH, AND ENTERED AS
SECOND-CLASS MATTER AT THE POSTOFFICE AT AUSTIN, TEXAS,
UNDER THE ACT OF AUGUST 24, 1912

The benefits of education and of useful knowledge, generally diffused through a community, are essential to the preservation of a free government.

Sam Houston

Cultivated mind is the guardian genius of democracy. . . . It is the only dictator that freemen acknowledge and the only security that freemen desire.

Mirabeau B. Lamar

EXPLANATION

The University bulletins are so numbered that the first two digits of the number show the year of issue, the last two the position in the yearly series. (For example, No. 1801 is the first bulletin of the year 1918.) These comprise the official publications of the University, publications on humanistic and scientific subjects, bulletins prepared by the Bureau of Extension, and by the Bureau of Economic Geology and Technology, and other bulletins of general educational interest. With the exception of special numbers, any bulletin will be sent to a citizen of Texas free on request.

A nominal charge is made for all bulletins sent out of the State except catalogues, announcements, etc., unless sent to an institution on the exchange list of the University of Texas. Money for these bulletins must be sent with the order, as it has been found impracticable to send bulletins on account.

A number omitted from the consecutive order indicates that such number was not used. The following serial numbers have not been used:

In the 1918 series: 1866, 1867, 1868.
